

AL RAMZ

Plastic Factory

AL RAMZ PLASTIC FACTORY KSA

About Us

Al Ramz Plastic Factory (RPF) was founded in Riyadh industrial city in 2019 to trade new and recycled polymers, plastic raw materials, flexible packaging, and pipe products

In response to the growth of our business, our new factory was established in Jeddah in 2020, and several production lines for recycled plastic raw materials were added, allowing us to cover the retail, wholesale, and industrial markets in the Kingdom while also exporting to international markets

Our vision

With the Saudi 2030 vision in mind, we intend to become a leading global polymers trader and producer.

Our mission

To provide high quality products that meet global standards at competitive prices that meet the requirements of the local and international markets at a high level that serves the common interests, resulting in customer satisfaction and mutual business development.

Our values

Providing our services with credibility and integrity

Commitment to producing items with the highest quality standards.

Fostering cooperation and a sense of empowerment among our diverse staff

Constantly striving to provide excellent services through the development of new and improved technologies.

Dedication to making a positive contribution to the Saudi economy by empowering local production and talents.
